Sharp NEC Display Solutions

Desktop Displays

NEC E Series | Commercial Enterprise

MultiSync® Model	Size inch / cm	Height Adjust in mm	Brightness in cd/m²	Resolution	Signal Connectivity
E172M	17 / 43	50	250	1280 x 1024	DVI-D, VGA. HDMI
E221N [1, 2]	22 / 55	110	250	1920 x 1080	DP, HDMI, VGA
E224F [1, 2]	22 / 55	120	250	1920 x 1080	DP, HDMI, VGA
E242N [1, 2]	24 / 60	110	250	1920 x 1080	DP, HDMI, VGA, USB 3.1
E243F [1, 2, 3]	24 / 60	130	250	1920 x 1080	DP, DVI-D, VGA, USB 3.1, USB-C
E244F [1, 2]	24 / 60	120	250	1920 x 1080	DP, HDMI, VGA
E271N [1, 2]	27 / 69	130	250	1920 x 1080	DP, HDMI, VGA
E273F [1, 2, 3]	27 / 69	130	250	1920 x 1080	DP, HDMI, USB 3.1, **USB-C**
E274F [1, 2]	27 / 69	120	250	1920 x 1080	DP, HDMI, VGA

1 **2** **3** USB Typ C

- Full height-adjustability (50 - 130 mm) for perfect individual display set-up
- Business class image quality

NEC EX Series | Commercial Enterprise Extra

MultiSync® Model	Size inch / cm	Height Adjust in mm	Brightness in cd/m²	Resolution	Signal Connectivity
EX241UN	24 / 60	100	250	1920 x 1080	DP, DP Out, DVI-D, HDMI, USB 3.0

- Stunning spacious visualisation friendly
- Fatigue-free visual performance
- Modern and slim design
- Full height-adjustability (100 mm) for perfect individual display set-up

NEC EA Series | Advanced Enterprise

MultiSync® Model	Size inch / cm	Height Adjust in mm	Brightness in cd/m²	Resolution	Signal Connectivity
EA231WU [1, 2]	23 / 57	150	250	1920 x 1200	DP, DVI-D, HDMI, VGA
EA241F [1, 2]	24 / 61	150	250	1920 x 1080	DP, DVI-D, HDMI, VGA
EA242F [1, 2, 3]	24 / 61	150	250	1920 x 1080	HDMI, DP, DP-out, DVI-D, **USB-C**
EA241WU [1, 2]	24 / 61	150	300	1920 x 1200	DP, DVI-D, HDMI, VGA
EA242WU [1, 2, 3]	24 / 61	150	300	1920 x 1200	DP, DP out, HDMI, USB-C
EA271F [1, 2]	27 / 68	150	250	1920 x 1080	DP, DVI-D, HDMI, VGA
EA272F [1, 2, 3]	27 / 68	150	250	1920 x 1080	HDMI, DP, DP-out, DVI-D, **USB-C**
EA271Q [1, 2, 3]	27 / 68	150	350	2560 x 1440	HDMI, DP, DP-out, DVI-D, **USB-C**
EA271U [1, 2, 3, 4]	27 / 68	150	350	3840 x 2160	2xHDMI, DP, **USB-C**

[1] [2] [3] USB Typ C [4] 4K UHD

- Full height-adjustability (130 - 150 mm) for perfect individual display set-up

- Highly flexible signal connectivity

- Protecting your eyes from strain and damage on selected models

- USB Hub included in all EA models

SHARP 8M-B32C1 | Professional & Colour Reference

Model	Size inch / cm	Betriebsdauer	Brightness in cd/m²	Resolution	Signal Connectivity
8M-B32C1	32 / 80	16/7	1000	7680 x 4320	DP, 3x HDMI

daniel2   HDMI®   HDR   8K 7680 × 4320 Pixels   CERTIFIED D™

- Native 8K resolution for premium content display
- Extended color space, for precise and true-to-life colour representation
- Sharp's advanced Uniform Colour Calibration (UCCT) technology and separate look-up tables (LUT) ensure consistent color representation and high levels of detail
- Creative perfection and precise images thanks to advanced color and image management settings
- Full array backlight system analyses the source content of images and adapts areas to be brighter or darker

USB Type-C

Newest USB Type-C connectivity standard – optimize connectivity and declutter your desk; replace video, audio, power (65W) and USB cabling with just a single cable to connect your notebook/ tablet PC with the display, thereby futureproofing your environment.

NaViSet Administrator 2

An essential tool for large estates, the all-in-one NaViSet Administrator 2 software enables IT administrators to remotely manage their network of NEC display devices and Windows PCs. In multi-device environments, this system simplifies the handling and control of devices helping to keep maintenance costs low, minimise downtime and ensure the efficient use of resources.

Low-Blue-Light and Flicker-Free Technology

Built-in Low Blue Light technology filters out hazardous blue light emissions whilst Flicker-Free technology eliminates any backlight flickering, thus protecting your eyes against cataracts and macular degeneration without compromising true-to-life display colour performance.

Ecological Efficiency

With the Human Sensor, Ambient Light Sensor and Carbon Footprint Meter, the displays also promote professional green productivity and minimise unnecessary power usage as well as the life-cycle environmental impact.

Slim and Modern Design

The latest ultra-narrow bezel displays are targeting ultimate office productivity, performance and quality. The narrow bezel screens ideally support multi-screen set-ups for large visual workspaces and simply look stunning also in single screen installations.

Multi-Monitor Management with ControlSync®

Controlling a multi-screen workplace consisting of several monitors via one master monitor running all connected sub monitors effectively saves time for the set-up and display control and reduces power consumption (supported by EA- EX series).

Service Plus

We take the guessing out of the set-up and maintenance. Our customers can concentrate on their business activities, confident that their IT infrastructure is underwritten by the Service Plus promise:

• 5 years warranty extension
• Ad-hoc warranty extension
• De- / re-install service
• Laser branding service
